Summary

With a background in developing and maintaining legacy Windows / Linux applications, I've mastered different programming languages and relation databases like Oracle, MySQL, and MS-SQL. I have been transitioning to modern technologies like React, Angular, Node.js, and Amazon Web Services (AWS), eager to innovate in the evolving field of software engineering.

EXPERIENCE

2018 - 2024
Full Stack Developer
London Stock Exchange Group

Leveraging modern front-end frameworks such as React and Angular, along with cutting-edge back-end technologies like Node.js and AWS Lambda, I have developed new user interfaces that facilitated the transition from legacy to contemporary web development.

Technical Scope: React, Angular2, Node.js, Amazon Web Services (AWS).

Education

Bachelor of Science, Computer Science

Sharif University of Technology
